Mentor

Berin Tuzlić stands out as one of Bosnia's most prominent contemporary animators and multimedia artists. His work bridges comics, animation, live music, and commercial art. Whether crafting short films exploring environmental and media-related themes or drumming live with dRUMELODY, he blends visual storytelling with sound. Additionally, his leadership roles in industry groups and academia further underscore his influence in animation and visual arts.

About

The workshop "Comic Storyboard & Animated Film" is intended for young people from Bratunac and Srebrenica who want to explore the world of drawing and animation. Under the guidance of experienced artist Berin Tuzlić, participants will have the opportunity to learn the basics of creating comics and storyboards, and how to translate those elements into an animated film.

Through this workshop, young participants will master the techniques of drawing characters and scenes, as well as how to develop a story through images. Special attention will be given to understanding the dynamics and visual storytelling, which will help them turn their ideas into interesting and engaging animated stories.
